# *Evidence Based Practices*

- «L'autismo è attualmente una delle condizioni umane più studiate e discusse, e la sua prevalenza spinge tutti coloro che sono coinvolti nell'intervento precoce, in educazione e nella clinica a ricercare quali pratiche siano le più efficaci ed abbiamo dimostrato un impatto positivo nella traiettoria di sviluppo delle persone con autismo».

### Knows familiar faces and begins to know if someone is a stranger

#### Description

In the first image of this series of 2, the baby is smiling and looks comfortable because she is familiar with the person she sees. Knowing familiar faces is a 6-month social/emotional milestone.

In the second image of this series of 2, the baby looks unsure because she does not know the person she sees. Beginning to know if someone is a stranger is a 6-month social/emotional milestone.

## Autism Navigator® ASD Video Glossary

The ASD Video Glossary is a web-based tool built to help families and professionals learn more about the early signs of autism. This tool was developed by the Florida State University Autism Institute in collaboration with First Signs and Autism Speaks and has been available to the public free of charge since 2007. The Glossary contains more than 100 video clips illustrating the diagnostic features of ASD. Side-by-side video clips show behaviors that are typical in contrast with those that are red flags for autism. The Glossary also contains over 100 video clips to illustrate common treatments available for children with autism. The ASD Video Glossary has been brought into the Autism Navigator collection and updated to be in line with the new DSM-5 diagnostic framework.

# https://autismnavigator.com

The screenshot shows a web browser displaying the Autism Navigator website. The URL in the address bar is <https://autismnavigator.com/release-video/>. The website header includes the Autism Navigator logo and navigation links: What is Autism?, Family Resources, Courses, Webinars, and Provider D. The main content area features a video player titled "Critical Importance of Early Intervention" from the "About Autism in Toddlers" section. The video player shows two side-by-side scenes: "Early Signs of Autism" (a child sitting on the floor) and "Change with Intervention" (a child standing and playing). The video player includes a progress bar, a volume icon, and a play button. Below the video player, there is a "CONTACT US" section with the address "Autism Navigator, LLC, 1400 Village Square Blvd." and email addresses "support@autismnavigator.com" and "sales@autismnavigator.com". There is also a "RESOURCES" section with links for "Find My Way Our Team", "Privacy Policy", and "How You Can Help".
