## TEACHING VERBAL BEHAVIOR TO CHILDREN WITH AUTISM AND OTHER DISABILITIES

July, 2-3-4 2010 - From 09.30 to 17.30

### Workshop Description

Participants in this workshop will learn:

- to conduct a Behavioral Language Assessment,
- to select the most appropriate form of communication for a child (vocal, signing, pointing to or exchanging pictures, or activating an augmentative device)
- to select the communication responses and supporting skills that should be taught first.

The workshop includes the recommended teaching procedures for those children who have no formal communication skills to those that are near conversational speakers. The presenter also describes and demonstrates errorless teaching, specific quick-transfer (prompting and fading) procedures, and the use of both discrete trial training in the natural environment and during intensive teaching session. Many video tape demonstrations are provided to illustrate the methods to increase spontaneous language and to develop conversational skills.

### Materials

All attendees will receive a detailed workbook covering all aspects of the workshop including extensive references.

### Registration and payment

Fill in the registration form on  
<http://www.paneeciocolata.com>

Payment is due upon registration

IBAN: IT 52B0 6385 37070 10000 0008813 BIC: IBSPIT2B
