---

*Tipo attività:*

*Schede didattiche e spunti*

*Abilità:*

*Le seguenti schede di attività includono materiali adatti a bambini con competenze di curriculum iniziale, intermedio ed avanzato. Alcune schede prevedono attività di pregrafismo adeguate a bambini con curriculum iniziale e intermedio di tratteggio o collegamento. Altre schede implicano conoscenze di sfondo (cosa si trova nell'orto? Cosa serve per fare il bagno?) e competenze verbali (cosa non c'entra/ a cosa serve la chiave?) ed infine molte delle schede possono essere utili soprattutto come spunto per brevi conversazioni e scambi verbali contestuali (come si chiamano coccinella, farfalla e ragno della scheda? Dove vivono? Tu li hai mai visti? Ecc).*

*Il materiale è stato elaborato con lo scopo di includere una moltitudine e varietà di stimoli. Sappiamo come sia importante includere nelle attività che proponiamo ai nostri studenti le preferenze dei bambini perciò nelle schede troverete una gran varietà di personaggi e stimoli di cartoni animati recenti.*
