PeC-PIR  
Partial Interval data recording

Pane e Cioccolata  
*Associazione culturale*

# Uno strumento per

- Registrare comportamenti anche numerosi dal video
- Estrarre i dati su Excel/LibreOffice
- Rivedere più volte la sezione di video e verificare la presa dati anche tra più osservatori
- Registrare i dati in termini di
  - Frequenza
  - Partial interval
  - Momentary time sampling

# Limiti

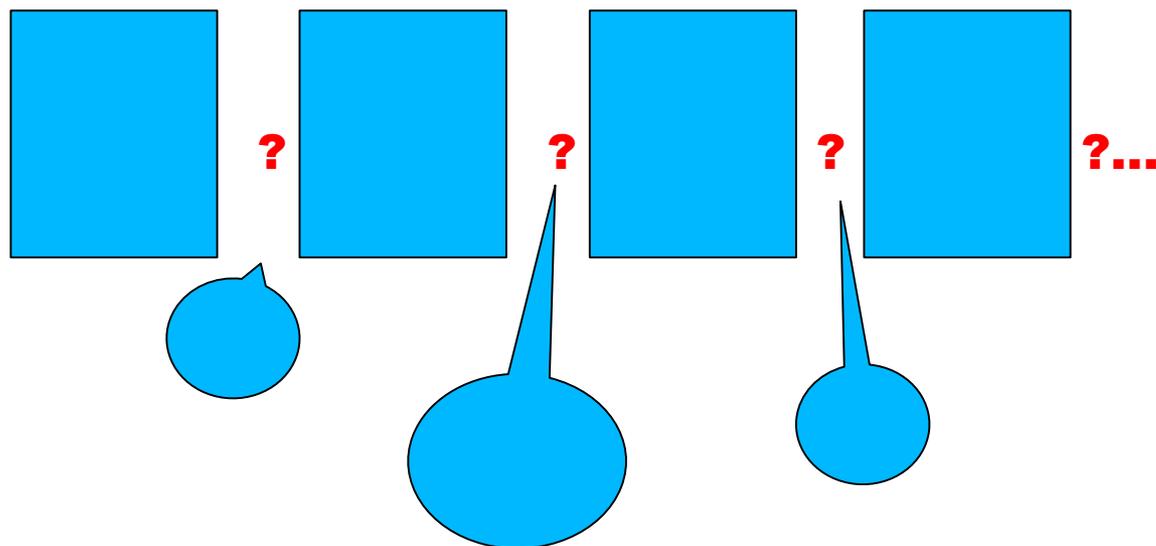

---

Compatibile solo con PC, può essere utilizzato sul sistema Mac solo con un emulatore Windows

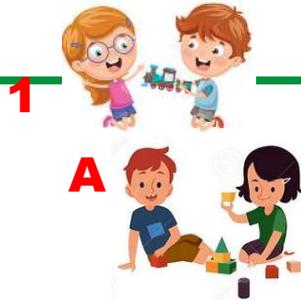

# Come avviene la presa dati

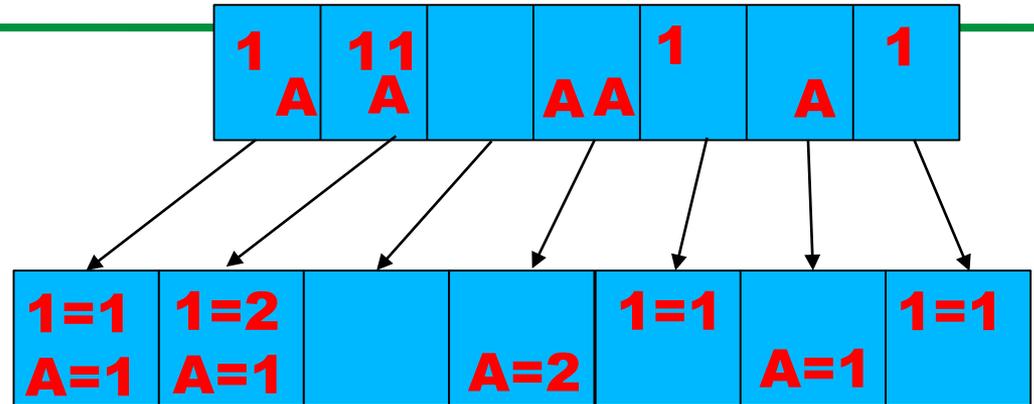

Si divide il tempo in intervalli di durata identica, poi si rileva il numero o la presenza dei comportamenti target. Si assegna ad un codice di numeri o lettere ciascun comportamento.

# Tipi di misurazione

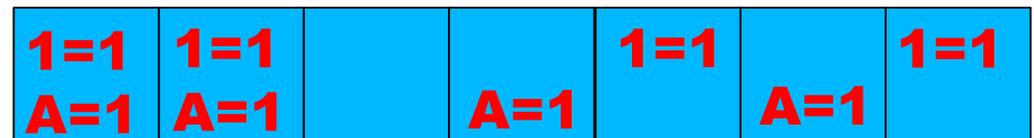

**Frequency Count**  
conta la frequenza

**Partial Interval Recording**

*conta la presenza*

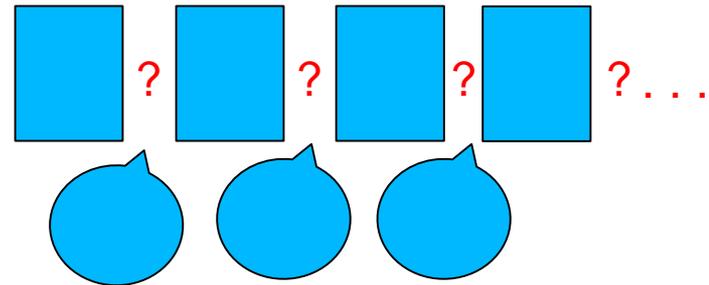

*1 = comportamento presente nell'arco dell'intervallo esaminato*

# Tipi di misurazione

## Momentary Time Sample

La valutazione viene fatta al termine di ogni intervallo

File ?

Interval duration

Partial interval recording  Frequency count  Pause video on interval end, MTS
